

HIGH QUALITY, AUSTRALIAN MADE, PLEATED RETRACTABLE INSECT SCREENS

intelliscreens™
It has never been easier

Slimline Panorama™ is only 32mm wide making it perfect if you already have shutters or blinds on your door. No bulky housings protruding into your living space.

Slimline Panorama™ is a pleated mesh retractable design making it visible up close which acts as a safeguard from possibly costly damage caused by walkthroughs but is otherwise invisible to not spoil or take away from the outdoors and your views. You look what is beyond the mesh, not at the mesh.

Slimline Panorama™ has minimum moving parts reducing the maintenance required and the possibility for any problems later.

Slimline Panorama™ has no springs which means no brakes or catch mechanisms. It can only move with you operating it. Perfect for families as it glides from end to end all while remaining perfectly levelled making it simple, easy, and safe to operate from young children to the elderly.

Slimline Panorama™ can easily screen openings up to three metres tall and over five metres in a single span. Great for French doors, bifold doors and stacker doors.

Slimline Panorama™ comes with a five year warranty on the parts and one year on the mesh and cords.

Slimline Panorama™ comes in a wide range of Powder coat colours and can be made to match your existing door or design configuration.
